

# NEURAL NETWORKS & AESTHETICS

Frieder Nake  
Summer 2020

## Assignment 1

(FN, 20 July 2020)

According to our plan, the five days follow a simple structure:

- from 10 to 12, meeting in person (hopefully!),
- from 12 to 14, you work individually on an assignment and have lunch,
- from 14 to 16, meeting online.

Here is the first of those assignments.

You already know what a "neural network". You know of its biological meaning, you know of its technological meaning. You are yourself dealing with such software. You have precise and you may have vague concepts. Think about all this, in many directions. Write one page on

*My understanding, my concept of "Neural Network".*

Write in such a way that your parents and your grandparents understand it. Send me your one-page text as a pdf file during the day.
